PROFILE

Final-year B.Tech Computer Science student specializing in Java Full Stack Development, with hands-on experience designing backend systems using Java, Spring Boot, JDBC, and MySQL, alongside responsive frontend applications using HTML, CSS, JavaScript, and React. Strong foundation in Data Structures & Algorithms (300+ problems solved on LeetCode) and database design principles. Certified in Oracle Cloud and Database Architecture. Seeking an entry-level Java Developer / Full Stack Developer role to build scalable, high-performance web applications.

SKILLS

- **Programming Languages:** Java (OOP, Collections Framework, Exception Handling), SQL, JavaScript, C++, Python (Basic)
- **Backend Development:** Spring Boot, JDBC, RESTful APIs, MVC Architecture, CRUD Operations, Maven, Client-Server Architecture
- **Frontend Development:** HTML5, CSS3, JavaScript (ES6+), React.js, Responsive Web Design, DOM Manipulation, UI/UX Fundamentals
- **Database Technologies:** MySQL (Joins, Indexing, Normalization, Query Optimization), Relational Database Design
- **Tools & Platforms:** Git, GitHub, VS Code, Oracle Cloud Infrastructure, AWS (Foundations)
- **Core CS:** Data Structures & Algorithms (300+ LeetCode problems solved), DBMS, Operating Systems, Object-Oriented Programming

EXPERIENCE

Frontend Developer Intern – Prodesk IT & Engineering Services (Remote) Jun 2025 – Jul 2025

- Developed and optimized responsive web interfaces using HTML, CSS, and JavaScript.
- Improved cross-device compatibility and UI consistency across multiple project modules; delivered functional prototypes within a strict 2-month timeline.

Web Development Intern – ApexPlanet Software Pvt. Ltd. (Remote) Jun 2025 – Jul 2025

- Built interactive frontend components and implemented client-side logic.
- Enhanced debugging efficiency and code maintainability using structured coding practices.

AI & Technology Intern – IBM / Microsoft / Skill4Future (Remote) Jul 2025 – Aug 2025

- Worked with Python and cloud-based platforms, gaining exposure to enterprise AI/ML workflows.
- Collaborated on structured project tasks following real-world development cycles.

PROJECTS

Property Dealer (Java, JavaScript)

- Built a real estate property listing application enabling browsing and management of location-based property records.
- Combined Java-based backend logic with a JavaScript-driven dynamic frontend for property search and display.

University Management System (Java, JDBC, MySQL)

- Designed and implemented a backend-driven management system handling student, faculty, and course records.
- Developed 5+ relational tables with proper normalization to maintain data integrity; implemented full CRUD operations using Java and JDBC connectivity.
- Applied OOP principles to modularize application layers and ensured efficient queries using joins and indexing.

BookStore Management System (Java, Maven)

- Developed a Maven-based Java application for managing book inventory and store records with a modular project structure.
- Applied dependency management and structured packaging following Java project best practices.

E-Waste Generation Classification (Python, Jupyter Notebook)

- Built a machine learning model to classify e-waste categories, supporting sustainable disposal decision-making.

Personal Portfolio Website (HTML, CSS, JavaScript)

- Built a fully responsive personal portfolio website with smooth navigation, deployed via GitHub Pages with cross-browser and cross-device compatibility.

EDUCATION

B.Tech in Computer Science & Engineering – Surajmal University	Expected Aug 2026
CGPA: 8.5 / 10	
Senior Secondary (XII) – Science, Campus School, Nainital	2022 77.5%
Secondary (X), Campus School, Nainital	2020 85.3%

CERTIFICATIONS

- Oracle Database@AWS Certified Architect Professional (2025–2027)
- Oracle Cloud Infrastructure 2025 – AI Foundations Associate
- Oracle Cloud Infrastructure 2025 – Generative AI Professional
- Java Certified Programmer – HackerRank
- AWS Foundations Certification (Course Completion)

ACHIEVEMENTS

- Solved 300+ problems on LeetCode, including Dynamic Programming, Backtracking, Graphs, and Binary Search, with 100-day and 50-day streak badges (2025–26), strengthening algorithmic thinking and DSA mastery.
- Winner in technical and quiz competitions (Engineer's Day).
- Served as Cultural Fest Coordinator & Event Host, demonstrating leadership and communication skills.
